

Assignment Listening and Speaking

EDCI 469

Gracen Monet Dickey V00911768

Grade 6 class

Activity Number 1: Pizza Making

Pair students with a partner and have them pick someone to be student A and the other to be student B. Have student A start as the pizza maker and have student B order what they like to eat on their pizza. Student A will add each topping to the pizza that student B requests. Once the pizza is made the students will switch jobs and the activity will start over. When both students have picked the ingredients on their pizza and cooked them they can enjoy their creation!

Activity Number 2: Drawing blind

Pair students with a partner and have them pick someone to be student A and the other to be student B. Students will face back to back with a piece of paper in front of them, student A will start by giving instructions and student B will start by drawing. Student A will tell their partner what their monster looks like, each student will be given a monster picture to describe. They will give instructions for how many eyes, how many arms, how many legs, colour, and any other fun details they may want to add. Once student B has finished their drawing the partners will switch and A will draw and B will dictate. Once both pictures are done they will turn around and show each other their drawings and see if they look like the picture being described. Vocabulary we have not covered will be written on the board to help guide students.
